FORMALDEHYDE TEST KIT (ชุดทดสอบฟอร์มาลดีไฮด์)

QUANTOFIX® Formaldehyde

REF 913 28

This test allows the quick and easy determination of formaldehyde. It comes with all necessary reagents so that the measurement can be started immediately. A reliable result is obtained within 1 minute.

Formaldehyde is used for a large variety of products, ranging from shampoo to clothes. In large quantities it is used as raw material in the chemical industry. Formaldehyde is poisonous and can cause allergic reactions as well as irritations of skin, eyes and air passages. If such reactions are observed after contact with suspicious substances it may be useful to control the formaldehyde concentration.

In closed cooling or heating circuits formaldehyde is used as biocide. Here, QUANTOFIX® Formaldehyde serves to easily monitor the system.

Type:	test strips and reagents
Range:	0 · 10 · 20 · 40 · 60 · 100 · 200 mg/L HCHO
Sufficient for:	100 tests
Shelf life:	at least 2.5 years after production
Color change:	beige → blue-violet
